

Manish Kumar

Greater Noida, Uttar Pradesh, India

Email | LinkedIn | GitHub | Codolio

SUMMARY

Computer Science undergraduate with knowledge of data structures, algorithms, and software development. Worked with Java, Spring Boot, C++, SQL, and backend technologies through academic and personal projects. Interested in building practical software and solving programming problems, with an interest in backend and full stack roles.

EDUCATION

Galgotias University, Greater Noida

B.Tech in Computer Science and Engineering

CGPA: 8.64

2024 – 2028

Kendriya Vidyalaya | St. Paul's School

Secondary Education | Senior Secondary Education

Class 12: 78.0% | Class 10: 91.0%

2011 – 2023

TECHNICAL SKILLS

Programming Languages: C++, Java, Python, HTML, MySQL

Core CS: Data Structures & Algorithms, Problem Solving, OOP, DBMS, Operating Systems

Software & Tools: Scilab, Git, GitHub, Render, Solidworks, Adobe Photoshop

Frameworks: Spring Boot, Java Swing, Servlets & JSP

Soft Skills: Communication, Leadership, Teamwork, Collaboration, Problem Solving

PROJECTS

Aegis – Women Safety Application (Group Project) | GitHub

Dec 2025

- Developed a cross-platform Women Safety App "Aegis" using React Native and Expo, featuring real-time emergency detection.
- Implemented video and SMS modules with integrated false-positive management to improve system accuracy and reliability.
- Assisted in integrating core safety features, including frontend-backend integration, and validating emergency detection workflows.

PDF-to-Images CLI | GitHub

Aug 2026

- Built a Python CLI and FastAPI REST microservice to render PDF pages into high-res images.
- Engineered a multi-process rendering engine via PyMuPDF, boosting throughput by 5.4x.
- Added REST endpoints, containerized with Docker, and automated CI pipelines with Pytest.

OPEN-SOURCE CONTRIBUTIONS

GirlScript Summer of Code (GSSoC '26) | Contributor | Profile Link

Global Rank #63 | A-Tier

- 100+ merged PRs delivered across 7 open-source repositories – AlgoBuddy, VoiceForge, TermUI, Story Spark AI, PDF Assistant RAG, easemotion-css and truxify.
- Contributed bug fixes, new features, UI enhancements, and documentation improvements across DSA visualization, terminal UI, voice synthesis, AI story generation, and RAG-based PDF tooling.
- Promoted from Contributor to Collaborator on AlgoBuddy for consistent, high-quality work.

PROGRAMMING & ACHIEVEMENTS

- Solved 350+ problems on various coding platforms and with a contest rating of 1500+ on LeetCode.
- Winner of GDG TechSprint hackathon (2026). Certificate
- Secured 1st place at Idea Discovery, an ideathon organized by Galgotias Incubation Centre. Certificate
